IN THE COURTS

The Blythe Damage Suit Was Given To the Jury Today.

MATTERS IN CIRCUIT COURT

In the Police Court Today Fines Amounting to Several Hundred Dollars Were Assessed.

ORDERS IN SMALLER COURTS

FEDERAL COURT.

The big \$50,000 damage suit of Mrs. J. T. Blythe, of Fulton, against the Illinois Central, for the death of her husband, was given to the jury before the noon adjournment of court today, and a verdict will be returned this afternoon. The case was unusually long, there being over one hundred witnesses in it, and it was completed in two days.

Mrs. Blythe was formerly a resident of Murray, and late of Paducah, being at one time proprietor of the saloon and restaurant at Broadway and Maiden alley and later with Mr. Mun Newport, of the Palmer house bar. He went to Fulton to reside, and a year or more ago, while crossing the tracks of the Illinois Central at that place in a buggy with Mr. H. Tyndall was struck by a fast train and both men were instantly killed.

Suits were at once brought in the circuit courts by the administrators of both estates, and transferred on motion of the railroad attorneys to the federal court.

The case of F. G. Rudolph, administrator of Winston, against the Illinois Central railroad was dismissed without prejudice at the cost of the plaintiff.

In the case of W. W. Smith against the Paducah Coal and Mining company, a motion for a rule on the plaintiff was filed and the defendant appeared and has thirty days to respond. The rule for the plaintiff was to produce contract within thirty days.

CIRCUIT COURT.

Circuit court continues to drag. Yesterday court adjourned at noon for the day, and today the program was carried out as on yesterday. There were only four cases tried in that court this morning.

C. P. Hudson was given a judgment against J. W. Moore and others for \$150 and also an order to sell property to satisfy the judgment and other claims in the case.

W. H. Patterson vs. City of Paducah. Commissioner filed his report which was ordered over for three days for exceptions.

In the case of Ella Stovall against James Stovall, Oscar Kahn, attorney for non-resident, filed his report, and was allowed \$5 for his services.

In the case of Samuel L. Graham against W. L. Bryan the plaintiff was given a writ of possession for property in judgment by his own motion. Court then adjourned for the day.

COUNTY COURT.

Judge Emery returned from the country this morning after a private business trip.

The case of B. H. Pryor against Isaac Parham, suit on alleged tobacco bill amounting to \$47.50, was continued yesterday afternoon, as the sheriff had not been informed of the case in time to summon a jury. The case will again be taken up Tuesday morning. Special Judge Cross was in the chair yesterday afternoon, in the absence of Judge Emery.

A suit was filed in quarterly court this morning by Attorney D. A. Oates for Henry Seamen against Mary and Leonard Block, suit on note amounting to \$69.51.

J. J. Sanders and wife deed to the Kentucky West Normal Literary Scientific school, for \$359, property in the county on the Lovelaceville and Col. Harvill roads.

B. W. Vaughan deeds to E. D. Thurman, for \$316.50, property on the Paducah and Benton gravel road.

POLICE COURT.

Today's session of the police court was a very profitable one for the officers. Nine women of West Court street were fined \$40 and costs each for keeping disorderly houses, as they are before every grand jury that meets. The saloon keepers will be warranted for Sabbath violation next week, and come in for their quarterly fine of \$10 and costs each.

Dennis Reed, colored, was fined \$1 and costs for a plain drunk.

IMPORTANT DECISION

Ruling of the Court of Appeals Relative to Administrators.

Mr. G. B. Underwood Will Probably Be Appointed to Succeed the Public Administrator.

Attorney M. W. Worten this morning received from Frankfort a copy of the opinion in the appeal case of G. B. Underwood against F. G. Rudolph, administrator of the estate of the late Pink Underwood, which the court of appeals reversed a day or two ago. The opinion is of considerable importance as the decision bears on several cases in this county.

Pink Underwood was a fireman on the Illinois Central who was killed in a wreck and County Judge Tully appointed Public Administrator F. G. Rudolph to take charge of the estate. Mr. G. B. Underwood, a relative, made application to have the appointment set aside and himself appointed, claiming that the county judge had no right to turn an estate over to the public administrator until after the lapse of ninety days, in order to give relatives an opportunity to qualify, which under the law it was claimed they had a right to do.

Judge Tully overruled the motion to make the change and the case was taken to circuit court, which decided it had no jurisdiction.

The case was then taken to the court of appeals, and the latter decides that estates cannot be placed in the hands of public administrators, where there are relatives until after ninety days as to place estates arbitrarily in the hands of public administrators often causes a waste of the estate by the unnecessary expense.

As soon as the mandate arrives Mr. Underwood will take the proper steps to have the estate turned over to him. There is now pending a suit of \$35,000 damages brought by the administrator against the Illinois Central for the death of the fireman.

SCHOOL MATTERS.

A Big Crowd Expected at the Educational Meeting.

High School Pupils Number 145—Football Team Challenged By the Wingo Team.

All the arrangements for the Educational District Association meeting for Friday and Saturday, November 29 and 30, have about been completed, and the teachers are looking forward to an enjoyable convention. There are many fine papers on the program and many prominent men and women in educational circles coming.

Miss Ada Clark was yesterday admitted into the ninth grade at the High school which makes now 145 pupils in the High school. The attendance is excellent and the teachers are very much gratified over the prospect for having the best year in the history of the schools.

The high school football team had a full practice yesterday afternoon and feel confident that they will "wipe up the earth" with the opposing Y. M. C. A. team on Thanksgiving day. Both teams are confident and the game will be hotly contested.

LEG BROKEN.

HEAVY SEWER PIPE FALLS ON JOE MURPHY.

Joe Murphy, who is employed in hauling the big sewer piping into the city from Arcadia, met with a serious accident this morning while lifting one big pipe into a wagon. The pipe slipped out of the men's hands and fell on Murphy, breaking his left leg at the knee joint. Dr. Robertson and Dr. Stewards were called and dressed the injury. Murphy was then taken to his home near Eighth and Adams streets and was resting easy at press time.

EVIDENCE BEGUN.

Washington, Nov. 21.—At a few minutes past 3 o'clock yesterday the jury which is to try Mrs. Ida Bonine on the charge of murdering James Seymour Ayres, Jr., the young census clerk, was completed, and the court adjourned until 10 o'clock today, when a statement of the case on behalf of the government was made by the district attorney.

A TENNESSEE FAILURE.

Dyersburg, Nov. 21.—T. E. Ray, a merchant running a store at Stokes twelve miles southeast of Dyersburg, carrying a general stock of dry goods, groceries, hardware, drugs, etc., made a general assignment which was recorded here. By the terms of the assignment H. B. Rike of Dyersburg is named as trustee and directed to take charge of the business at once, to cash up its assets and to close up the business by April 1, 1902, paying all creditors in the same ratio.

The debts are fixed at about \$2,500, while the assets are shown to be \$4,000. Short crops, low prices of cotton, inability to collect his accounts and to meet his liabilities as they fell due, and the disposition of his creditors to enforce prompt collections of their debts is the cause for the assignment.

STORMED BY MARINES.

Washington, Nov. 21.—The following cablegram has been received at the navy department from the commanding officer of the Asiatic station, dated Cavite, November 20:

"Waller reports on 17th marines attacked almost impregnable position Sojoton, Samar, destroying three camps, killing 80 men, capturing 40 bamboo guns, rice and stores. He reports no casualties, and commends Porter, Bears and other officers."

PERISH IN A MINE.

It Is Believed That Fully One Hundred Are Dead.

Telluride, Col., Nov. 21.—It is believed that nearly one hundred have perished in the Smuggler Union mine as a result of a fire which burned the buildings at the mouth of the mine tunnel. Twenty bodies have already been recovered.

The day shift had just gone on duty when the fire broke out, and before they could be warned of their danger the levels and stopes were filled with gas. About half of the day force escaped. A rescuing party cut a connection

through from the commission workings adjoining and took out part of the men. Although the buildings were partly consumed, the dense smoke continued to pour into the tunnel, and it was not until 8 o'clock this afternoon that it occurred to the management to shut off the draft by blasting rock into the tunnel. It is believed by mining men that had this been done as soon as the fire started all lives of life might have been averted.

GRAVE AND UNCERTAIN.

It is a Question Whether Miners Will Disperse, or Defy the Law.

SITUATION AT NORTONVILLE. Nortonville, Nov. 21.—The union miners in camp here are making every arrangement to resist the order of Judge Hall to disperse. The deputy sheriff served the notices on the miners last evening, and the leaders all say they will ignore the order.

The order gives the miners 24 to 48 hours in which to disperse, and, if not obeyed at the expiration of the time allowed, the soldiers will go into the field.

Since the removal of the Rienecke camp there is but one camp in Hopkins county, the large concentrated one at Nortonville which now contains 250 men, armed with the latest improved rifles and provided fully with ammunition and supplies.

The gravity of the situation can hardly be exaggerated. But one thing is certain. Judge Hall has adopted a vigorous policy and intends to carry it out as being the only sure means of suppressing lawlessness and restoring order and asserting the supremacy of the law in this county. Judge Hall says that he will not hesitate to use every prerogative of his office including the services of the military now under his orders, to see that the order to disperse is obeyed to the letter.

He regards his course clear and he will not fail to carry it out.

Gen. Murray says: "I am here subject to Judge Hall's orders and am ready to carry into effect his orders."

AT MADISONVILLE.

Madisonville, Nov. 21.—It is said that the union miners are this afternoon not showing so much bravado, and may yet decide to obey Judge Hall's order and disband the camps. Though the union miners are defiant, President Wood is this afternoon consulting with lawyers at Greenville, and may have the Nortonville camp moved to Muhlenberg county to avoid trouble.

LIVELY CONTEST.

TERRELL BROTHERS WILL REFUSE TO VACATE THE STABLE.

A lively contest is promised over the possession of the Terrell stable at Fourth and Court streets. Mrs. Milie Davis owns the property, and it is understood that it has been leased to Mr. Wynn Tully, who is to equip it and run it as his own livery stable.

The Messrs. Terrell have no intention of going out of the business, and will attempt to retain possession of the building, claiming that they have a lease. They have been here for fourteen years, and have employed attorneys to fight the case when it reaches the proper stage.

SOCIAL SESSION.

EVERYTHING COMPLETE FOR THE AL G. FIELD RECEPTION TOMORROW NIGHT.

The Elks meet tonight at their hall in Leech building in regular session, and arrangements will be completed for the social session tomorrow night in honor of Al G. Field and the Elks who are with his troupe. One of the most delightful times in the history of the order is anticipated.

At the meeting tonight it is probable that the building project will be brought up and discussed, if not finally disposed of.

Try Dr. Jennelle's tooth powder. It is warranted to be the best offered to the public.

TO SUE AGAIN.

ENGINEER BORNESCHNEIN WILL ATTEMPT TO KEEP HIS CASE IN CIRCUIT COURT.

It is reported on good authority that Mr. J. J. Bornschein, the former engineer, will again bring suit for damages against the I. C. railroad this week in the circuit court but the amount will not be so large as the original prayer, \$20,000. It seems that there was a little hitch in the suit in the federal court and on motion of the plaintiff the suit was dismissed to be brought again in the circuit court of this county this week.

TO OPEN BIDS.

CAPT. B. B. DAVIS WENT TO LOUISVILLE AS MEMBER OF MASONIC TEMPLE COMMITTEE.

Captain B. B. Davis left at noon today for Louisville as a member of the building committee of the big \$300,000 Masonic temple that will be built in Louisville shortly. The contract will be let tonight or tomorrow and Mr. Davis is one of the members of the committee that opens the bids and awards the contract. It is understood that there are contractors from many cities after the job but none have been made public. It is not known if a local man has put in a bid.

Lang to Mr. Andrew Carnegie, the millionaire philanthropist, and is the official acceptance of the millionaire's offer to the city to establish a public library here for which he agrees to give \$55,000 with official certificate of complying with Mr. Carnegie's requirements. Mayor Lang has had a duplicate copy of the letter made with seal attached and will keep it as a souvenir of his duties as mayor of the city of Paducah.

Paducah, Kentucky, Nov. 21, 1901.

Hon. Andrew Carnegie,

Dear Sir: As per your letter to the Rev. G. W. Perryman, of this city, the city of Paducah, by its lawfully constituted authority, the common council, has adopted an ordinance setting aside an annual appropriation of thirty-five hundred dollars, \$3,500, for the maintenance of a public library, and have secured, one of the handsomest and most eligible sites to be had in the city upon which to erect same, at a cost of ten thousand dollars, \$10,000. Officially thanking you in advance for the gift, I have the honor to be, Very respectfully,
JAS. M. LANG, Mayor.

MATHIS IS CAUGHT

Desperate Mississippi Murderer Surrendered at Dallas.

He Is Saved From Mob Violence by the Advice of Cool-Headed and Good Men.

Pontotoc, Miss., Nov. 21.—Will Mathis surrendered at 8 o'clock last night at Dallas, and turned over two Winchester rifles and three pistols. He was pursued by hounds and several hundred men, who were close on his trail.

He first went to Curt Hartfield's on the south side of Yocoma river, twelve miles south of Pontotoc, where he tried to hire the negroes on the place to take Hartfield's horses and pilot him to a friend's house on Paducah creek. The negroes were badly frightened and ran to Hartfield's house and reported. This caused Mathis to believe that a mob was after him, and he rode on to Dallas, where he surrendered.

When he appeared at Hartfield's, which is a telephone station, Miss Clyde Hartfield telephoned the fact to Pontotoc and all the other telephone offices on the line. The searchers were at once notified and put on the trail. When he surrendered he stated that he did not know whether to sell out or give up, and was told to use his own discretion about the matter. He agreed to surrender and was put under arrest.

Those who were engaged in the chase are assembling at Dallas, and there were 500 men there before morning. It is believed that the law will be allowed to take its course. There is much excitement, however, and no one can foresee what may happen.

NOTES AROUND THE Y. M. C. A.

Secretary Escott Will Revive Interest in Class Drill Work.

A Young Men's Sunday is to Be Held at Murray, Ky., December 1st.

The business men's class will meet in the Y. M. C. A. tonight for regular class drill and a good attendance is expected. The football teams have been monopolizing the gym to a certain extent during the past several weeks and not as much attention has been paid the regular class work as might have been. Secretary Escott wishes to revive interest in the regular drill work and requests all the members of all classes to attend the class drills hereafter, if possible.

The date for the Young Men's Sunday to be held at Murray has been arranged for December 1, but this will probably be the only held this year unless a date can be arranged with Fulton. Most of the meetings will be held between the first year and the middle of the following month, February. A good attendance at the state convention will be worked up and the most successful one ever held is looked for.

JAW BROKEN.

A COHANKUS FACTORY EMPLOYEE HURT IN AN ACCIDENT.

Herbert Shaw, an employee of the Cohankus Manufacturing company, of Ninth and Boyd streets, met with a serious accident this morning at about 11 o'clock while at work at a big winding machine. The spool pin of the machine flew loose and struck the young man in the right jaw, breaking it very badly. The young man lives in Rowlandtown, where he was taken after the accident. Dr. Brooks dressed the injury. The accident might have been more serious had the pin struck a little higher and lodged in his temple.

DIED IN LOUISVILLE.

Mrs. R. M. Miles, of Michael Bros., left at noon today for Louisville to attend the funeral of his brother who died in St. Joseph's infirmary last night at 10:32, the result of an operation. The deceased was Mr. H. A. Miles, a prominent tobacco buyer of Louisville and was a prominent man and had been ill only about ten days prior to his death. He leaves a wife and two children besides his brother. He was 38 years of age. The funeral will probably be held tomorrow afternoon, interment at Louisville.

A delicious lunch will be served at Stutz's every day from 11 a. m. to 2 p. m., only 15 cents. 4t

BURIAL HERE

Captain Jack Lawson's Death at St. Louis Was Very Sudden.

STRICKEN WHILE OUT WALKING

The Remains Will Reach Paducah Tomorrow Morning. Burial at Mt. Kenton.

SOME MORE OF HIS HISTORY

Capt. Jack Lawson, the ex-Paducahan whose death at St. Louis yesterday was chronicled in The Sun, will be buried in Mt. Kenton, Paducah, beside his wife.

This morning Mr. Dan McFadden, clerk at the postoffice, received a letter giving further particulars of the venerable man's death. He was out for his daily walk, when he suddenly fell, and when picked up was unconscious, and died a short time after being taken to the home of his adopted daughter, Mrs. E. M. McFadden, near whose house the fatal summons came.

Capt. Lawson has been in feeble health for some time, but his death was very sudden and unexpected. He was born at Newton-in-the-Weale, England, on August 18th, 1805, and had been in America since 1829. He was for years a steamboat captain, having a boat that ran up Tennessee river, and at one time was quite wealthy. Capt. Lawson had been a Mason for seventy-three years, having joined at Tusculum, Ala., and was a Knight Templar, and a member of the Presbyterian church. His wife died several years ago here. They never had any children.

The remains will reach Paducah tomorrow morning on the St. Louis train, and the burial will be at Mt. Kenton. The time will be decided on later. The burial will likely be conducted under the auspices of the Masons, the deceased having been a life-long member of Plain City Lodge No. 449, of Paducah.

DAILY THOUGHT.

"Prove ye are the cream of a nation's

thought."

OUR COUNTRY.

Secretary of State Hay, in an ad-

dress before the chamber of commerce

of New York, paid a glorious tribute to

the American government, and among

other things spoke reassuring words to

those vacillating South American

governments that believe the United

States want to gobble them. Along

this line he said:

"I think I may say that our sister

republics to the south of us, are per-

fectly convinced of the sincerity of

our attitude. They know we desire

the prosperity of each of them, and

peace and harmony among them.

We do more want their territory than

we covet the mountains of the moon.

We are grieved and distressed when

there are differences among them,

but even then we should never think

of trying to compose any of those

differences unless by the request of

both parties to it. Not even our earnest

desire for peace among them will

lead us to any action which might

offend their national dignity or their

just sense of independence. We would

endow them with all the consideration

we claim for ourselves."

He declares that we have tried to

cultivate friendly relations with all

peoples, but to form no alliances or

combinations that they may be dis-

posed to form. That we are a peace-

loving people, and the vast develop-

ment of our industries demands that

we extend our commerce in every

direction, and for this are the recip-

rocity treaties that will soon

come before the senate for action. All

we want is a fair field and no favor."

Of our development in the Pacific,

he says:

"We consider our interests in the

Pacific ocean as great now as those of

any other power and destined to in-

definite development. We have opened

our doors to the people of Hawaii; we

have accepted the responsibility of

the Philippines, which Providence

imposed upon us; we have put an end

to embarrassing condominium in

which we were involved in Samoa,

and while abandoning none of our

commercial rights in the entire group,

we have established our flag and our

authority in Tutuila, which gives us

the finest harbor in the south seas.

Next in order will come a Pacific

cable and an isthmian canal for the

use of all well disposed peoples, but

under exclusive American ownership

and American control; both of which

great enterprises, President McKinley

and President Roosevelt have been

the energetic and consistent cham-

ions."

He commended the peaceful policy

of President Roosevelt, and concluded

with the words:

"But the consciousness of strength

brings with it no temptation to do

injury to any power on earth, the proud

or the humblest. We frankly con-

cess we seek the friendship of all the

peoples, we want to trade with all

peoples; we are conscious of resources

that will make our commerce a source

of advantage to them and also profit

to ourselves. But no wantonness or

strength will ever induce us to drive

a hard bargain with another nation

because it is weak, nor will any fear

of ignoble criticism tempt us to insult

or defy a great power because it is

strong, or even because it is friendly."

All of this goes to show what a

great and good government is ours.

Our prosperity increases in bounds,

and our goods are sought everywhere.

We have the most unlimited resources,

the most energetic and progressive

people and the brightest future of any

power over the lives, liberty and

property of free men exists nowhere

in a Republic, not even in the largest

majority." In addition, in the elec-

tion board, there was created by the

Goebel law a court other than those

established by the constitution, which

was another plain violation.

The opinion says in part:

"It would seem that the attempt

to confer the power of contest on the

state election commissioners is in

violation of Section 2, Subdivision 2,

of the Constitution, which provides

that 'absolute and arbitrary power

over the lives, liberty and property

of free men exists nowhere in a re-

public, not even in the largest ma-

majority.' The answer in this case

calls attention to some facts which

tend strongly to illustrate the arbitrary

features of the law. There is no pro-

vision by which the parties can escape

a trial before the commissioners,

even if, as charged in the answer,

the members have made up and ex-

pressed their opinion, and it appears

that one of the commissioners, as a

member of the canvassing board, re-

fused to sign appellant's certificate,

and published in the press his opinion

that appellee should have received the

certificate. This same commissioner

filled the vacancy made by resigna-

tion, and one of those appointed had,

through the press, expressed the op-

inion that appellee ought not to have

the office, and yet under the law it is

claimed that these men must remain

on the board; in fact, the commis-

sioners might try the case, although

on the one side might be a near and

dear friend or relative and on the other

a bitter and despised enemy. What

could be more arbitrary than a statute

authorizing such a proceeding?

"The judgment or decisions of the

board of contest was null and void,

and conferred no right upon appellee,

Breckinridge, and could not affect ap-

pellee's right and title to the office

in contest, and the court below erred

in rendering the judgment appealed

from."

port is based represent twenty-two

states and several foreign countries.

The whole number of such organiza-

tions is much greater.

By tree planting and in many other

ways streets have been beautified.

Public bath houses, drinking foun-

tains and commodious school houses

have come into being. In one Massa-

chusetts town, for example, a pictur-

esque stone railway station has taken

the place of an old wooden structure,

and an Indian monument and a me-

morial walk have been added to the

local "sights." In other towns parks,

sanitary reforms, the marking of his-

toric spots, and a score of other bene-

fits have sprung directly from the

efforts of improvements societies. Sim-

ilar work is done on an extensive scale

in many foreign countries. It is re-

ported that "investigators in Ger-

many find the country is practically

one vast improvement association." A

London society has turned to public

use of rest and refreshment dismal

old burial places and schoolhouse

grounds hitherto closed on Saturdays,

and it has spent great sums of money

in "improving" Epping Forest.

It is an interesting fact that the

people of the Swedish town of Orsa

have employed scientific forestry so

wisely that the sale of trees provides

for all the public expenses usually met

by taxes. The business advantage of

improvement work is well worth con-

sidering, but that is not the best re-

ason for urging it. Like personal neat-

ness and cleanliness, it is good for its

own sake, for the promotion of self-

respect, for the cultivation of a pro-

personal and civic pride, and for

the advancement of good citizenship.

The women's clubs of America have

done more than any other agency for

the spread of this influence. It is a

public work which women can prob-

ably do best, and they may be trusted

to carry it into every corner of the

land.

credit that is due it for its good work,

without rushing things.

If the union miners in Hopkins

county resist the order of court,

they will not only prove themselves

outlaws, but menaces to their fam-

ilies, friends and to the cause they

profess to represent, as well. They

have congregated for an unlawful pur-

pose, according to the courts, are armed,

and are not there for the defense of

their rights or property. They have

no grievance against the mine opera-

tors, except that the latter will not

permit them to run their business and

say whom they shall employ and

whom they shall not employ, and are

bent on assailing hard working men

who are satisfied with the wages they

are getting, the hours they are re-

quired to work, and the treatment

they have received and are receiving

from their employers, without the aid

or interference of a union. Work has

been suspended by the actions of these

intimidators, troops have been called

out at a great expense, and the en-

tire neighborhood terrorized by men

who if they do not desire to work

themselves, should at least permit

those who do, to work. It is reported

that the miners are preparing to resist

by force of arms the mandate of the

court to disperse and if they do they

will forfeit what little right they

ever had to the sympathy of a law-

abiding people.

The order of court requiring miners

to break camp in the coal districts of

Western Kentucky is a step in the

right direction, and should have been

made long ago. The people are tired

of the lawlessness that has existed

through the indifference of officers of

the law, and demand peace and order.

It begins to look as if they will get it.

The Louisville city council has

come to its senses and voted a resolu-

tion of thanks to the Messrs. Bern-

heim for their magnificent gift of the

Jefferson statue to the city. The res-

olution was first turned down because

the Messrs. Bernheim are Republicans

and the council is Democratic.

It looks as if that brilliant and tal-

ented young assistant attorney general

of the state Col. Clem Whittemore, of

Mayfield, is shortly to be out of a job.

Of course he will be missed, but per-

haps in time some one can be found

to adequately fill the vacancy occasioned

by his resignation.

NATIVE SORCERERS, BAFFLED

TERS.

London, Nov. 21.—Lieut. Gov.

George R. Lebone, in his annual re-

port on British New Guinea, tells a

curious story of native superstition

which is causing the sacrifice of in-

numerable lives. It appears that

whooping cough was introduced by

two white children and spread with

trifling rapidity. It first swept the

coasts, and is now ravaging the inter-

Observations ...at Random

They have some funny trials over in Illinois. The other day in Metropolis there was a case involving the right of a merchant to hold auctions. It appears a number of other merchants were arrayed against him, and decided to prosecute. The mayor and city attorney did not desire to prosecute, and the people were divided into factions, some on one side and some on the other. There was more interest manifested in the case than in a murder trial, and the accused employed City Attorney Lightfoot of Paducah to defend.

Attorney Lightfoot went down and found a vast crowd in the magistrate's office. He learned that the mayor, who has the say so, did not desire to prosecute, and that the city attorney had not instituted the case, as the law required, and after the usual wrangling, he decided on a coup that startled the natives. He had the mayor appoint him acting city attorney, and with his commission in his hand, moved that the case be dismissed, as he did not, as the city's representative, desire to prosecute. About this time somebody took a change of venue, and court moved to another part of the city, where the Paducah city attorney, also the acting Metropolis city attorney, attempted again to have the case dismissed. The court wouldn't listen to it, and the case went to trial. The verdict brought in was for a fine of \$10, and the Paducah attorney had it set aside because it was \$10 less than the minimum fine, \$20.

It is said that the jury does not pay much attention to the law in such cases in Metropolis, and when things do not go to suit a man in one court he has the case moved across the street into some other court, where he has another chance. At last accounts the auction question was still agitating the minds of the people of our neighbor, but Attorney Lightfoot does not think it will ever be entirely settled.

A man with a small tent that looked as if it were a relic of the Civil War was making a bid for nickles a few days ago at Third and Broadway. He had on exhibition a "goose with a human face."

A gentleman met one of his juvenile acquaintances and said: "Willie, would you like to see the show?" Willie thought he would.

He clutched the nickle and hurried to the scene, and soon breathlessly returned.

"Oh, Mr. B.," he exclaimed, "they've got a goose over there with a face just like yours!"

Col. Collins McGinnis, one of the popular attaches of Great Springs, spends much of his time in Paducah during the winter, and always takes in the shows. He may invariably be found sitting in the nearest seat to the man who plays the bass violin. It makes no difference what the attraction, nor which one, he always gets the seat closest to the "bull fiddler."

"I've been knowing him for forty years," remarked Marshal Collins the other night, "and I never did see him at a show in my life that he wasn't in that same seat. Now you mark my words. You are a young man, but if you are here forty years from now, go to some show and you'll see 'Fatty' in that same seat, watching every move the bull fiddler makes."

None of the genial young man's friends offer any explanation of why he prefers the seat, unless it is because he is sometimes a manipulator of the big fiddle himself.

A popular young society man and his best friend are rivals for the favor of a certain charming young lady. Their rivalry is of the friendly sort, and both were in the habit of hurrying through their meals so they could talk to her over the telephone. But neither was on to the other, and somehow one never could succeed in getting her to the "phone."

A few days ago the latter came down Broadway hardly able to wait until he could reach a telephone. He finally got there, and attempted to get her number, but heard the familiar and popular refrain, "Busy now."

He went to the next place and rang again, and received the same reply. The performance was repeated from 7th and Broadway to Third and Broadway, wherever he could get his impatient grasp on a telephone, but with the same luck.

Finally, with the last "Busy now," he slowly wended his way to his rival's place of business to confide in him, and found to his chagrin that it was his rival who had been talking to her all the time, and that he was still too busy engaged in the pleasant diversion to listen to any of his confidences. He has now chosen a different time to do his telephoning.

A well known secret service man, who often makes trips to the city on business pertaining to his profession, recently said in regard to the many robberies and safe blowing "jobs": "I have watched the 'jobs' and the course of the safe blowers for several seasons, and find that the men begin labor in the eastern part of the state and work down the Ohio river, cracking the safes in towns near the river. Their movements are well covered, and it is an impossibility to detect their whereabouts. We will find a safe blown here and think we will be able to head them off, but when we

THE PLAY'S THE THEM.

MISS ADALADE MANN, one of the prettiest members of the Murray and Mack company, is known to quite a number of Paducah people. Her home is now in Mobile, but was formerly New Orleans, and previous to that in Memphis. Her father, Capt. J. H. Mann, was at one time superintendent of the Paducah and Memphis railroad, and subsequently of the Cairo division, running to New Orleans. He has many friends in Paducah, and doubtless many will recall his daughter, although she was a mere child when he was here.

HIGH SCHOOL PUPILS CONSIDERING THE PRODUCTION OF "DIAMONDS AND HEARTS."

The teachers and the pupils of the High school are arranging to present "Diamonds and Hearts," a three-act comedy drama by Effie W. Merriam, and the production will probably be staged shortly after Christmas. It has not been fully decided that the play will be produced but the talk is very favorable. All the proceeds derived from the play will go towards increasing the funds for the maintenance of the library as the library committee now has but 85 cents left. The book case and several additions made to the library in the way of dictionaries consumed the funds and the committee has been looking about to devise some means of again acquiring a surplus.

A NEW HORSE. BEING TRAINED FOR THE FIRE DEPARTMENT—CHEMICAL ENGINE REPAIRED.

The chemical engine of the Central fire station has been repaired and is now in the station ready for service. The painting remains to be done but this can be done in the station house. The damages for repairing the machinery amounted to only about \$15 with about \$5 for painting.

"George," the injured horse is rapidly improving although it is still suspended in a swing and unable to use its limbs with ease. It is thought that the animal will recover and may be of value as a fire department horse again. One new horse was yesterday purchased from Mr. Robert Potter, of the county, and Chief Woods is training the animal every day. It is thought that "George" will be well again in two weeks.

STUCK TWO WEEKS. MAD STONE REMOVED FROM GREENVILLE WOMAN'S FOOT.

The mad stone which had for two weeks clung to the foot of Miss Amelia Roark of Greenville, Ky., who was bitten more than two weeks ago by a supposed mad dog, was yesterday returned to its owner, Mr. Frank Mantz. The stone was still sticking when removed, and it is uncertain how much longer it would have remained on the foot. She has been a guest at Conductor Tudor's, on South Eleventh.

MISS ROARK feels no pain from the wound.

DRAWN THE LINE. VIENNA, Nov. 21.—The government introduced the long-expected Exchange Reform Bill in the Reichsrath today. The bill does not oppose dealing in futures or grain. Fictitious transactions with the object of affecting prices will be classed as felonies. Gambling beyond certain limits is prohibited.

ULTRA-JINGO TONE. London, Nov. 21.—The Globe discusses the Hay-Pauncefote treaty in its usual ultra-jingo tone. It says: "Unless Lord Pauncefote and Secretary Hay have strictly observed the principle of quid pro quo, the treaty is far more likely to impair than to strengthen friendship."

AFFECTS 1,600 PEOPLE. Washington, Nov. 21.—President Roosevelt has issued an order amending the civil service regulations so as to return to the civil service a number of civilian places in the war department, excepted by executive order on May 29, 1899. Today's order is at the request of Secretary Root, and it affects about 1,600 people in the quartermaster's, medical, engineer and engineer-at-large departments.

CAPT. BAUER WINS

Judge Evans Decides That the Damages Cannot Exceed Proceeds

Of Sale—Trustee Bagby Will Sell the Wreck of the City of Goldconda at Once.

A very important order was made in the Ottoman Bank case this morning when it was ordered that the trustee, Mr. E. W. Bagby, sell the wreck of the "City of Goldconda" which turned over above Paducah with all on board August 19, to pay the judgments that might be filed against the owners, Mr. Ottoman Bauer and Arthur Peck.

About thirty days ago Captain Bauer put in a plea for the limited liability act of congress, to have to bear no damages greater than the value of the wreck of the boat, and the court sustained the motion.

This is the first time in the history of the city that the court has had to deal with the act here.

The wreck will be sold immediately and the proceeds will go to pay the damages in the different damage suits against the owners of the boats. The act was passed by congress many years ago but this is the first time it has been applied here or in this district.

Mr. Bagby will sell the wreck after fifteen days' notice, which he has to give before the sale can be made. The hull of the wrecked boat is on the Island close to where she went down and the engine and machinery remain attached to the hull but only one boiler is left, the other being partly submerged in the river some distance away.

As the wreck will bring only a few hundred dollars at the most, those who have filed damage suits, which already amount to ten thousand dollars, will get practically nothing if they win their suits.

CRESCENT THEATER.

Jolly, fat Al Fields, with a band of genuine minstrels is at the Crescent. Last night an enormous audience greeted the fun-makers and made the house almost burst from the force of its laughter and applause. Fields himself appeared in a monologue that is new, that is funny and that is a piece of finished minstrelsy.

But the man who pleases most, the fellow who makes the bright, shining star, is Jimmy Wall. Jimmy is brilliant, he startles, he glitters, he is a diamond.

Doe Quinley, the dancing master, Vernet and Delmo, Frank Fogarty and Eddie Doyle also add wonderfully to the fun and pleasure.

Dan Quinlan was also there. He acted as interlooper. He is the originator of all that excellent, rich, scenery presenting the Pan-American exposition views.

With the singers Newton Emmett, Reese Prosser, Aubrey Pringle and Joseph Blamphin made distinct hits. They rendered their solos in a pleasing style and won much applause.

Fields has a minstrel show where you get your money's worth when you visit it—New Orleans Playhouse.

Business in river circles holds its own pretty well, not troubled with any boom or any rush, but occasionally a lively stir for a few hours happens. However there is nothing expected until navigation is relieved by a general rise in the rivers.

The Fred Hartwig that sunk in ten feet of water near Randolph on the lower Mississippi last Tuesday lies perfectly straight and will be raised without much trouble. She was on her way to Cairo with a tow of empties. The towboat Fritz went to her assistance.

The J. B. Richardson was late in getting off for Cairo this morning. She had a good trip of people, shipped cable at 9 o'clock.

The Courier-Journal of yesterday says in its river news: Nearly fifty years ago the river editor of the old Louisville Democrat, then printed on Market street, near Third, where the omnibus is printed now, left here for Cincinnati ostensibly on a brief visit. Before leaving he went to a young fellow employed in the office, and asked him to write up his river news for him until he came back, but he never came back, and the "young fellow" is still writing river news. The one who went to Cincinnati was the veteran river editor, Col. Cons. D. Millar, who is blind and seriously ill in the Old Men's Home in that city. The "young fellow" above referred to is Will S. Hays. Both have been warm friends ever since they first met each other in the old Democrat office.

The Louisville Post says: Here is a list of towboats now at Pittsburgh, ready to come down upon us with tons of coal, steel and iron, when the Ohio rises: Harry Brown, Charley Brown, Sam Brown, Jim Brown, Cruiser, Mariner, Charley Clark, Joe Walton, Coal City, Sam Clark, Nellie Walton, L. N. Bunton, B. D. Wood, Josh Cook, Jim Wood, Dave Wood, Tom Lyle, Tom Dodsworth, Acorn, Pacific No. 2, Boaz, Defender, Exporter, Hornet No. 2, Joe Williams, Frank Gilmore, Fred Wilson, Raymond Horner, Ed Roberts, James Moren and Stella Moren.

Commodore Thomas Ryman of Nashville, arrived this morning. He comes here in the interest of his line of boats.

There was no fog this morning, but the heaviest frost of the season. It resembled a sheet of snow on the roofs of the packets.

River on a stand with 1.5 on the gauge this morning.

The officers of the Dunbar are credited with saying that Joppa is the best point on the river between Paducah and Cairo.

The beautiful new steamer Maude Kilgore built here last summer leaves St. Louis tomorrow for this city, Captain Mark Cole is in command. On arrival here she will receive her new engines, when she gets in good smooth running she will make the best of them take the sidetrack.
